Types of Judaic Stained Glass

From the day that Moses was commanded to build a tabernacle in the desert, temple art and architecture has developed along biblical lines. Synagogue stained glass can feature a wide range of symbols and emblems that are characteristically Jewish; the menorah, the lamp, the interlacing triangles, the Lion of Judah, and flower and fruit forms are all allowable in most Orthodox synagogues. Stained Glass Inc panels can serve as Temple windows, door inserts, partitions and feature walls. Jewish stained glass windows can follow a variety of styles and subject matter, a few possible themes of Synagogue windows and partitions include the following:

Beneficial

Light has a profound effect on thought and happiness. Unlike normal light sources, the rainbow colored light streaming through luminous windows is full-spectrum and prismatic. This can elevate mood by triggering beneficial relaxation responses, resulting in a sense of calmness and peace; a result most of us have experienced in contemplating a stained glass window or a rainbow.
