Frequently Asked Questions:

How are the domes lit?

Domes may be lit with either long lasting and energy efficient fluorescent and LED lights or by a skylight or by both.

How do I order a custom dome?

Call or e-mail us. We will help walk you through the custom dome design and ordering procedure.

I see a design I like here, but can I modify the design, color, or size?

No Problem. Since we manufacture the domes we are happy to create a custom size, color, or design to meet your needs.

How are the domes installed?

Stained Glass Inc. domes are designed to be easy to install and easy to work with. The domes are shipped in prefabricated units. The steel frame is assembled and the modular stained glass panel sections are set into the frame.

How long does it take to get a dome?

Most domes ship in 12 weeks. Time may vary due to changes or workload.
