Stained Glass for Offices

If you've been searching for a way to add charm and beauty to your office, consider Stained Glass Inc. custom stained glass office windows or cabinet inserts. Custom stained glass exudes a calming and productive atmosphere and also serves a number of practical purposes. Stained Glass Inc.'s designs and applications can be used in a variety of ways to bring color and warmth into the workplace.

Opt to divide your workplace with Stained Glass Inc.'s customized room dividers or partitions to add color and texture as well as privacy. Stained glass partitions offer your employees solitude while simultaneously enhancing the aesthetic appeal of the office.

If you'd like for your office to benefit from the use of natural sunlight but you don't want to deal with bright, unwanted glares, then stained glass window inserts are a good choice. Our custom inserts can easily be installed over your existing windows. They will let in soft natural sunlight and eliminate glares and unsightly outside views while offering privacy and beauty.

The talented artists of Stained Glass Inc. can also create stained glass signs that reflect your company's name and logo. You may also choose for us to design and install stained glass windows and cabinet inserts for your office kitchen or storage cabinets.

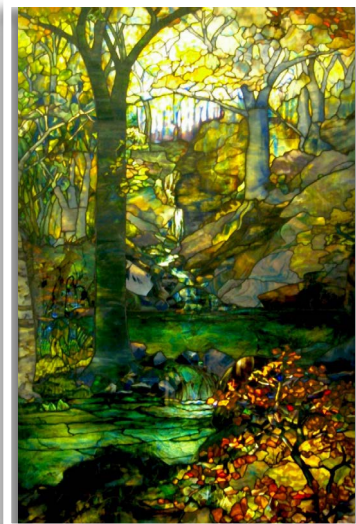

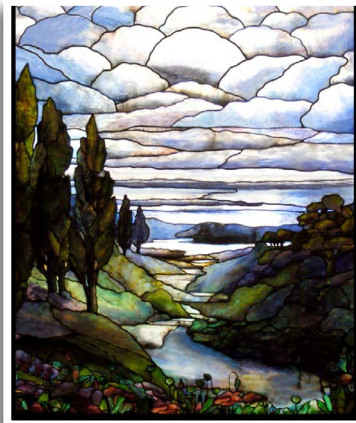

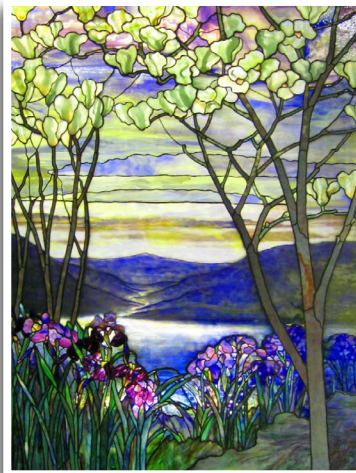

If many of the offices in your building lack windows, let Stained Glass Inc. install our unique internally-lit “windowless windows.” This allows those employees to receive all the benefits of naturally lit stained glass without the need for sunlight.

The talented artists at Stained Glass Inc. have created a wide variety of stained glass designs that can be added to enhance your office building. The rich colors and textures, finished with beautiful details, are sure to coordinate with any existing decor. You may also consider simply adding stained glass suncatchers to hang in front of regular windows.

Stained Glass Inc. stained glass is quick and easy to install, meaning you’ll spend less time and money on construction costs. In fact, most of our stained glass can easily be installed without fully replacing your existing windows. Plus, our inserts are made to fit your exact size and shape specifications. They are low maintenance and require very little care to maintain their beauty.

Browse our wide variety of designs, or work directly with a designer to create an affordable custom design. Our friendly and knowledgeable design assistants are available to help you through every step of the process.
