

Spring Hill Baptist Church Longview, TX

“We work hard at
producing a quality product
at an affordable price.”

Stained Glass for a Longview, TX Church
The design and price tag made the committee smile

When the reverend S. and his committee needed stained glass for their church they came to Stained Glass Inc. The church is located in the community of Longview, Texas. The church committee had selected a geometric design from a photo of another church. They brought the photo to Stained Glass Inc. and our artisans created a full color image based in the design. A full color “proof” was provided to the committee for their review and approval. The window insert was delivered and slipped into place. Installing the panel took just minutes.

Stained Glass Inc. is proud to be able to help churches like Spring Hill Baptist get the stained glass they want at the price they can afford. “We work hard at producing a quality product at an affordable price,” said Lyndon Stromberg of Stained Glass Inc. “We have found that dealing directly, avoiding the middlemen, operating efficiently and concentrating on the needs and wants of our customers is the key to quality products at affordable prices.”
