"The pastor, myself and the entire staff are just astounded at the beauty and quality of the windows."

"I knew they'd be wonderful, but the internet images just cannot compare to the color and detail of the actual product."

~Linda Williams, St Joseph

A parish of the Archdiocese of Detroit, the St Joseph church was built in 1966. Linda Williams, the Parish Manager first saw Stained Glass Inc. windows on the internet and brought the idea to Father Stan and the church.

St. Joseph's originally only intended to install 4 to 6 windows, but when the idea was suggested, donors stepped forward and within days they had sponsors for 27 windows.

Here is what Linda had to say about the experience:

"I cannot begin to tell you all how thrilled the parishioners were this past weekend to see their new stained glass windows. The pastor had promised them the new windows as a Christmas present (no pressure for me or all of you, right?) and you delivered."

We have had all positive comments and remarks and the people were so excited to see your beautiful windows in their church."

The pastor, myself and the entire staff are just astounded at the beauty and quality of the windows. I knew they'd be wonderful, but the internet images just cannot compare to the color and detail of the actual product."

The pastor and I are both new here, as of July 1, and this was our first major project in the parish. Thanks for helping us hit this one out of the ballpark!"

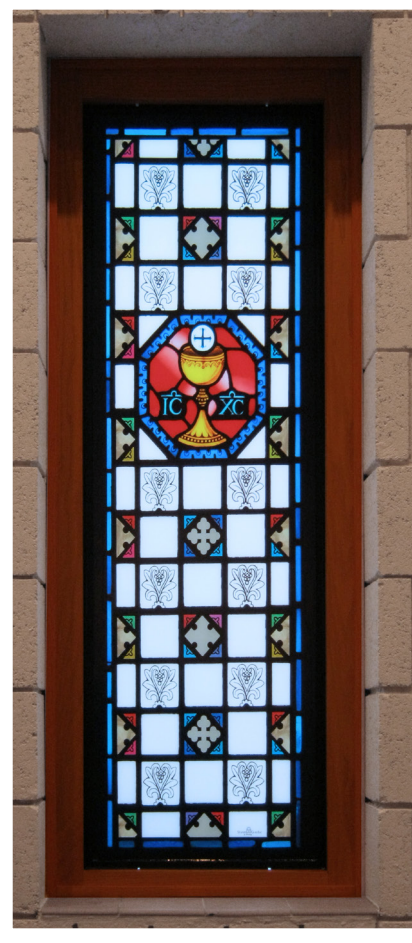

We do have a very large parish with people and clergy who visit us from the entire metro Detroit area. When they start asking about our beautiful windows, I will be sure to forward them to Stromberg and Stained Glass Inc."

Thank you for the wonderful customer service that you have provided during the last several months. It was a great pleasure to speak, work and meet with your staff and we are truly delighted with the finished product."

Wishing you a blessed Christmas and a healthy and prosperous new year."

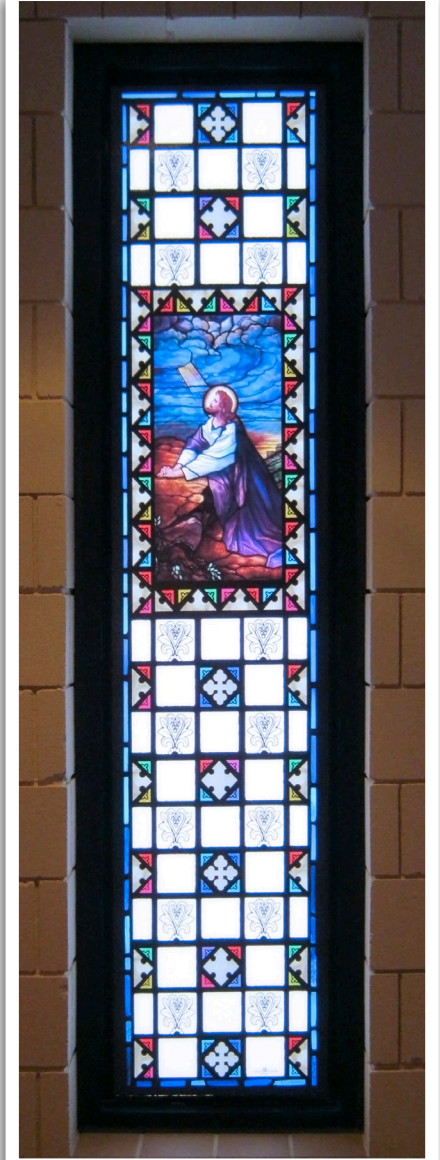

Sincerely,

Linda Williams, Saint Joseph Parish Manager"

PROJECT HIGHLIGHTS

- Designs were based on a combination of both traditional and contemporary stained glass art.
- The pastor selected the artwork from the online Collection and then Stained Glass Inc. made it work with the window sizes provided. This makes the artwork unique to the church and a collaborative creation.
- Windows were installed in the sanctuary, the meeting area and the chapel.
- The new windows eliminated distractions from passing traffic and glare.
- The windows created a noticeable reduction in outside noise and made the worship area quieter.
- All the window inserts were easily installed in 4 hours with no mess.

ABOUT THE ARTWORK

AVAILABLE SIZES. The artwork featured here is available in any size, from 1' to 100'. For shipping and handling purposes the maximum size of any single stained glass art panel is 5' by 10'.

AVAILABLE SHAPES. The stained glass featured here is available in any shape; whether round, rectangular, square, arched or other.

CUSTOMIZATION. Want a different color, add a name or change a detail? Let us know, we can customize the designs to meet your needs.

APPLICATIONS. These designs are available either as window inserts or as self-illuminated art panels. In addition to windows and wall art they can be used in doors, altar fronts and other applications.

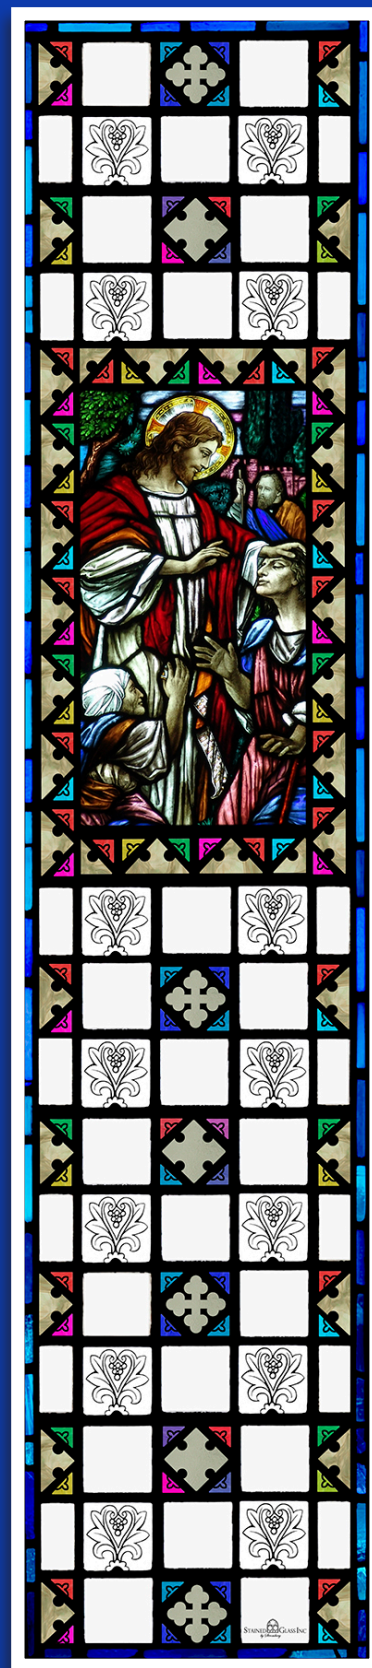

CONSTRUCTION. The artworks are fusion bonded. This process is similar to the process used for the safety glass in your car windshield. This advanced manufacturing method welds sections together with a polymer glass sheet to create a solid one-piece unit that won't come loose, rattle or need re-leading...ever.

STRENGTH. Thanks to its unique polymer laminate construction, Stained Glass Inc. panels are up to 140 times stronger than ordinary stained glass.

SAFE. Stained Glass Inc. panels are practically unbreakable, will not shatter and are free of toxic lead or heavy metals.

EASY. We make stained glass ordering and installation easy. The self-illuminated panels are simple to hang and the window inserts install in seconds with no mess or fuss.

AFFORDABLE. Our mission is to make stained glass affordable to all churches.
