## Fast Facts

- The windows are inserts that installed inside the existing windows.
- The Stained Glass Inc inserts were installed in under 1 hour.
- While inspired by the traditional images of stained glass, the artwork is original and is unique to this church.
- The windows follow the life of Christ and his teachings and progress in a clockwise fashion around the church.
- The artwork insulates the windows saving energy and utilities.
- Blocks damaging UV rays from fading the furniture and interior.
- Reduces the suns glare and blocks out traffic and undesirable views.

St Joseph Commerce serves the most eastern part of the Diocese of Dallas and the Texas A&M University-Commerce. A donor provided 14 stained glass window inserts for the church. They were installed just before Christmas in the existing windows. The traditional artwork blends beautifully with the contemporary architecture of the building.

Here's what St. Joseph's congregation had to say:

"Wow!!! What beautiful windows. I came in one day from my volunteer work in Dallas, I was speechless. What magnificent windows we have. Thanks for all the worked you have done. I will not hesitate to tell others about your stained glass artwork." ~ Sheena Z. Cumby, TX

"They are really beautiful and add so much to the worship experience at our church." ~ Dr. Harry and Dora W, Commerce, TX

"The stained glass artwork is exactly what our church needed! I love the traditional method you used, that is my favorite. The fact that the artwork is original to our church is truly wonderful. And the fact that the artwork not only is pleasing to the eye but also serves as insulation is awesome." ~ Angie D, Dallas, Texas

"We are delighted, absolutely delighted with the new windows. Words just can't describe how great they look. They evoke such a sense of peace; you can't help but feel calm and prayerful." ~John J., TX

## ABOUT THE ARTWORK

**AVAILABLE SIZES.** The artwork featured here is available in any size, from 1' to 100'. For shipping and handling purposes the maximum size of any single stained glass art panel is 5' by 10'.

**AVAILABLE SHAPES.** The stained glass featured here is available in any shape; whether round, rectangular, square, arched or other.

**CUSTOMIZATION.** Want a different color, add a name or change a detail? Let us know, we can customize the designs to meet your needs.

**APPLICATIONS.** These designs are available either as window inserts or as self-illuminated art panels. In addition to windows and wall art they can be used in doors, altar fronts and other applications.

**CONSTRUCTION.** The artworks are fusion bonded. This process is similar to the process used for the safety glass in your car windshield. This advanced manufacturing method welds sections together with a polymer glass sheet to create a solid one-piece unit that won't come loose, rattle or need re-leading...ever.

**STRENGTH.** Thanks to its unique polymer laminate construction, Stained Glass Inc. panels are up to 140 times stronger than ordinary stained glass.

**SAFE.** Stained Glass Inc. panels are practically unbreakable, will not shatter and are free of toxic lead or heavy metals.

**EASY.** We make stained glass ordering and installation easy. The self-illuminated panels are simple to hang and the window inserts install in seconds with no mess or fuss.

**AFFORDABLE.** Our mission is to make stained glass affordable to all churches.
