

Stained Glass Overlays from Stained Glass Inc.

Tired of your mini blinds and thinking about a new window treatment? Need extra color in a boring room but don't know how to incorporate it? Need new window treatments that take 10 seconds to install and are super easy to clean? Well, you have come to the right place for a colorful, attractive alternative to traditional window treatments. At Stained Glass Inc. our stained glass overlay is perfect for you! Stained glass overlays are panels of stained glass that fit over your existing windows. A stained glass overlay adds color and texture to any room, making it an ideal window treatment.

Stained Glass Overlay Protection from the Sun

Besides being beautiful and convenient a stained glass overlay can also protect your furniture and your health. One can playfully filter the sun while still providing privacy with a stained glass overlay. Stained glass overlays are much lighter than traditional stained glass and block ultraviolet light to guard you and your furnishings. No need to worry about the results of UV rays on your leather couch or dark mahogany cabinet, our stained glass overlays from Stained Glass Inc. will help keep their color rich and looking new. Stained Glass Inc.'s stained glass overlays can also help protect your skin by blocking harmful UV rays.

Easy to Order and Install Stained Glass Overlays

Ordering your stained glass overlay from Stained Glass Inc. is a very simple process that won't give you a headache. We offer hundreds of stained glass overlay designs for you to choose from so you will have no problem finding something that perfectly matches your style and décor. We also make custom stained glass overlays if you already have a design in mind. All you need to do is give one of our friendly customer service representatives a call with the measurements of the window you wish to cover with the stained glass overlay. We will immediately get to work on making your perfect stained glass overlay window treatment.

Our stained glass overlays at Stained Glass Inc. are extremely easy to install. At Stained Glass Inc. our team will work hard to make sure that your stained glass overlay fits perfectly into your existing window. Once you receive your stained glass overlay all it takes to install it is a few seconds of your time. You just simply slip the stained glass overlay into place over your existing window. Voila! It's that simple!

Easily Clean and Move your Stained Glass Overlay

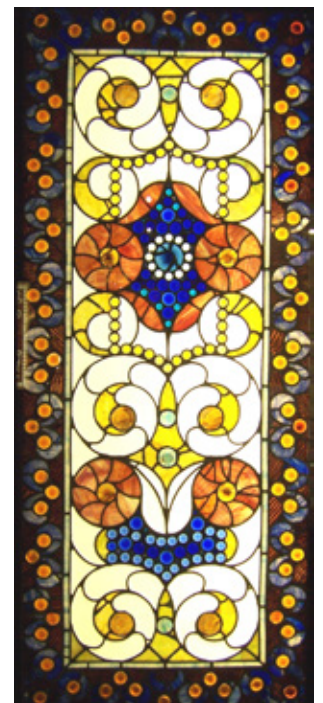

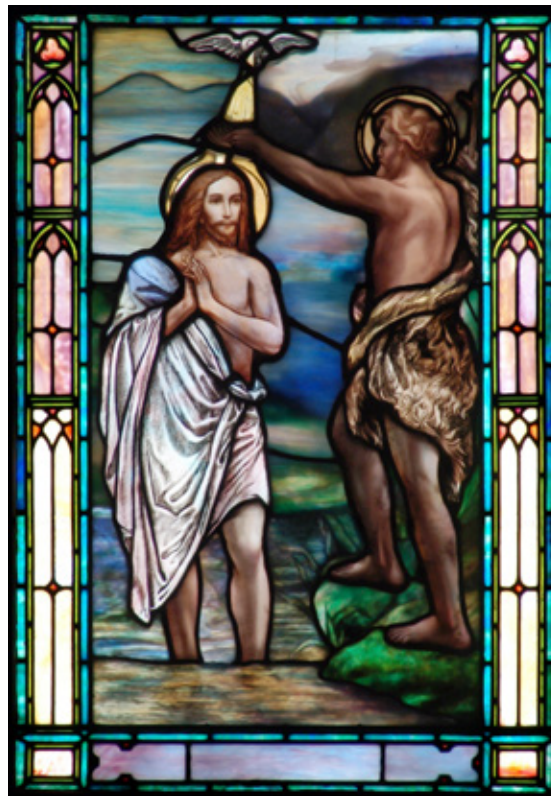

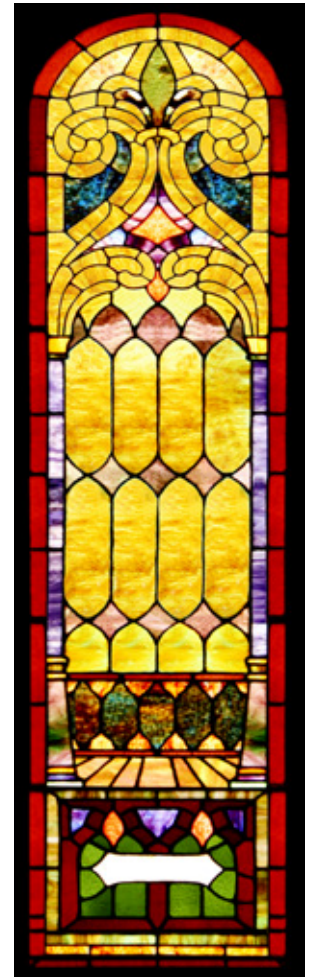

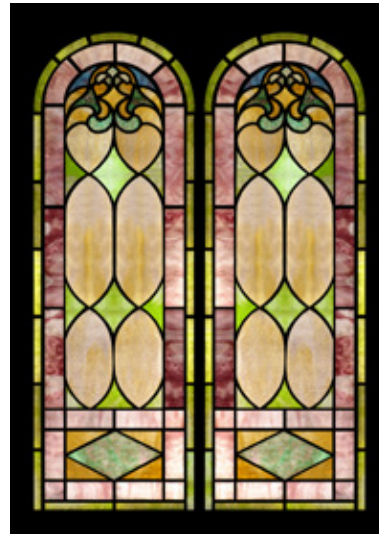

A stained glass overlay can be easily cleaned and simply removed. Because stained glass overlays are made of polymer glass, they require nothing more than a traditional window cleaning. Your stained glass overlay can easily be taken with you whenever you move or can be moved to a different window of the same size by simply sliding the stained glass overlay out from the window and into another. Stained glass overlays are also very easily transported because they are light weight and highly break resistant.

Projects and Benefits

Besides making stained glass overlays for homes and businesses we have also worked on numerous projects for more high profile organizations. These include:

- The US Capitol
- The Smithsonian
- The US Pentagon
- Ave Maria Oratory
- Faith Chapel Christian
- National Museum of the American Indian
- US Embassies
- The Federal Reserve building
- St. Peters Catholic Church
- Yale University
- The Texas State Capitol

Our stained glass overlays can also be found in 5 star resorts and churches all over the world. Our work can be seen at the Gaylord Opryland, Nashville, TN, the Hollywood Resort, Shreveport, LA, the Palmilla Resort, Baja Mexico, and the Potawatami Resort, Wisconsin. Stained Glass Inc. also provides beautiful church stained glass overlays and has helped various churches and cathedrals inspire their congregations with Biblical narratives illustrated in colorful stained glass.
